Dear Librarian:

Enclosed with this letter is a copy of House Bill 1361: An Act Providing for State Aid to Public Libraries as filed by Representative Lawrence F. Feloney of Cambridge, on petition of the Massachusetts Library Development Committee.

A hearing on this bill is scheduled before the Committee on State Administration on Wednesday, January 28, 1959 at 10:30 A.M., Room 423, State House, Boston.

It is of utmost importance that there be present a large contingent of trustees, librarians, and interested citizens to speak in favor of the bill. Also, the Committee on State Administration should be in receipt of numerous telegrams and letters before the time of the hearing.

Your MLDC Committee urges you and your Library Board to take the following steps to ensure favorable action by the Committee on State Administration:

1. Get in touch with the Representative and Senator from your area in the Massachusetts General Court. Urge their favorable support of the bill and an expression of this to the Committee on State Administration on or before the date of the hearing.
2. Send a telegram or letter to the Committee on State Administration at the State House, addressed to a member you know, personally; or to the Chairman of the Joint Committee: Senator Richard R. Caples.
3. If possible, have your library represented at the hearing; preferably, a member of the Board of Trustees.
4. Send the Chairman of the MLDC a brief report of the action taken by you or by the persons whom you have contacted. His address is: City Library Association, Springfield 3, Massachusetts.

Sincerely yours,

REPORT

February 9, 1959

At 7:30 P.M. on February 9, the undersigned met with the Salary Review Committee of Southbridge, which is made up of Vincent Walsh, Robert Jolie and Robert Champagne to discuss the projected raises for the Library Staff, and the Board informed me of the in-grade increases which are allowable under the system in the ranges affected.

The in-grade increases in the S-10 is \$225. a year. In the other classifications S-6, S-5 and S-4 it is \$150. a year. Although, I gather, we can give less than the in-grade increase established, we cannot give more.

Therefore, there will be no change in the Library increases. The increase for the Assistant Librarian, the Library Junior Assistant and Bookkeeper, and the Children's Librarian will have to be reduced under \$150. and the Janitor's rate would be increased \$36. to the top of his range - \$3,300. a year.

One of the things which makes library work so interesting, and keeps it from becoming monotonous, is trying to find material on, and answers to, the many different types of questions posed by library users. From the simplest: "Could you tell me what hours the library is open today?", to the more complex, "Will you give me information on the methods of statistical analysis," or "material on the rapid sand filter method for a city water plant?" The person who works in the library must be prepared for almost any question.

Recently though, one of the newer employees was almost stumped. A gentleman, who is a frequent library-user, approached her and asked "Do you have any special place for the Bachelor books?" Having been asked, only the day before, where the 'love' books were, said employee could only think of Bachelor in terms of bachelor—an unmarried man. She replied, rather dazedly, that she didn't think there was any special place for that type of book. The gentlemen looked a bit annoyed, and rightly so. His expression somehow finally impressed on his informant that he meant none other than the books of Irving Bacheller, our well known Northern New York author. All in a day's work at the library!

A variety of books was received from the Regional Library this week. We now have on loan a book on "Jewelry Making for the Beginning Craftsman", by Greta Pach—a well illustrated, practical book which includes sources of supply for the materials used; "10 Secrets of Bowling", by world's champion Don Carter; the Better Homes and Gardens book on "Flower Arranging"; "How to Make Containers and Accessories for Flower Arrangements", by Jean Amer. "Window Sill Gardening" by James Crockett tells how to achieve greenhouse success with your houseplants.

In a journalistic vein "Bury Me in an Old Press Box" by Fred Russell, a sports writer, is full of anecdotes involving many of sports' best known personalities. "Deadline Every Minute" by J. A. Morris is the story of the United Press. "Treasury of Foreign Cars Old and New" by Floyd Clymer is a descriptive album of pleasure, racing and sports cars from 1834 to the present day.

We are not listing all books received but suggest instead that you watch the tables near the entrance where the newer books are displayed.

The Pussywillow Junior Garden Club met at the library Tuesday evening. The enthusiastic members are Intermediate Girl Scouts who are working on their Wild Flower Badges. This group is sponsored by the Ogdensburg Garden Club.

On Wednesday afternoon we enjoyed the visit of five Girl Scouts belonging to Intermediate Lone Troop No. 1 from Morris-town who are working on their Reading Badges. Thursday afternoon brought us a visit of the Yorker Club of Lisbon. Both groups enjoyed the exhibits in the library and a visit to the fireproof vault where they saw newspapers dating back to 1832 as well as a book dated 1604 which belonged to the Rosseel family.

See you at the library.

Southbridge, Massachusetts

Dear Mrs. Tien:

This comes to express to the librarians of Massachusetts our appreciation and thanks for your outstanding contributions to the observance of National Library Week in Massachusetts.

It is only now as your letters, informal reports, and newspaper clippings are beginning to reach us that I am coming to realize the thought, originality, and plain hard work that made National Library Week the success that it was throughout the towns and cities of Massachusetts. It is too soon to determine the full impact of the Week, but I am convinced that your combined efforts have necessarily done much to strengthen the position of the library in Massachusetts.

I look forward to seeing your final report which is to be sent first to your Area Chairman. It is our hope to combine the newspaper clippings, photographs, and other materials into scrapbooks which will be on display at the Massachusetts Library Association meeting in June. In this way you, too, will have an opportunity to see some of the materials from other libraries in the State.

Again I offer our warm thanks for your help in making the second National Library Week an event of which we can all be proud.

Yours very sincerely,

1. Secretary's Report The Secretary's report was read and accepted.
2. Treasurer's Report The Treasurer's report was read and accepted.
3. Progress Show Report Librarian reported on the activities of the Library Booth at the Southbridge Progress Show. It doesn't seem that the value of that show compensated for the time spent on the establishment of the Booth and, therefore, the Board felt that it should not be entered into again in any succeeding years.
4. National Library Week The Librarian reported on the lack of results of the Week for the work put into it. Next year the Librarian plans a simpler recognition of National Library Week such as, lighting the Library, publicity, and so forth.
5. Great Books Group At her recent meeting in Washington, the Librarian discussed with the Great Books Group the fact that a number of people in Southbridge have requested the establishment of such a group. As a result of this, the Group will send up a professional organizer in September, to set up and organize this Southbridge Group.
6. Proposed Library at Notre Dame High School The Librarian was requested to help in the establishment of a Library in the Notre Dame High School. The Board all felt such a program will be beneficial to the Town as a whole, in that it will further the use of books amongst the Notre Dame High School students and will take some burden off the Library.

June 28, 1959

7. Furniture in
Children's
Room

At the Washington Meeting the Librarian attempted to have two items in furniture that have been defective since the room was set-up replaced by the manufacturer. The manufacturer has promised to do this.

8. Rentals of
Best Sellers

At the Washington Meeting the Librarian discussed with the McNaughton Company the possibility of renting current best sellers. The rental is done on the following basis: 100 books are rented at the start on a contractual basis and the inventory of books stays at 100 but the turnover can be as desired each month. The rental fee is at least \$35.00 a month. The Library could choose the type of books that it requires and would have a choice of these books that would be delivered prior to publication. This would help considerably when a very popular book such as, "Doctor Zhivago" comes along which in the beginning requires many copies that the Library doesn't want to buy for permanent possession.

The Board agreed that it favors such a contract, after clearance with the Town Counsel.

9. Report on
Washington
Conference

The Librarian reported generally on her Washington Conference which seems to have been a great success.

10. Automatic
"Charging Out"
Equipment

The Librarian discussed the advantages of equipment which charges out books automatically. The Board reviewed brochures on this. It was agreed that the Board would like a demonstration of such equipment before the busy Fall season begins, so that the Board can weigh the desirability of investing in it.

This being the last meeting of the year, the Board adjourned until September.

3. Replacement of Trees O.J.Laliberte will investigate the cost of and the best type of trees to replace the ones the Library has lost in the past several years. He will report on this at a later meeting.
4. Typewriter There has been some complaint in the Reading Room about the noise from the typewriter in the office. O.J.Laliberte will estimate the expense of closing in of the Library Office, and R.L.Fox will determine the expense of a noiseless typewriter. The Board will consider this at the next meeting.
5. Entrance to Children's Room The architect has not yet submitted plans and sketches for this work. He has indicated that he has two possibilities in mind.
6. Mutilation of Books The name of a boy who has evidently mutilated an encyclopedia has been found through finding the name with the pages removed from the encyclopedia. The Librarian will bring this matter to the attention of his family and request replacement of the cost of the book.
